This Marion Sims Wyeth landmarked home, built in 1928, has been completely renovated to today's standards. Tucked away on Golfview Road, this house is one block from Worth Avenue, restaurants and the beaches. Impeccably designed while keeping many of the original architectural details, this house is a must see! The gardens were designed by Mario Nievera, adding to the allure of this beautiful home. With an elevator, full house generator and the two-car garage off the private alleyway, this house has it all.
